# India Digital Stamps

Digital Stamp Duty Collection Solution  
Judicial Stamps

# Pitney Bowes is here to digitalise judicial stamps!

## India Digital Stamps solves all the challenges with physical judicial stamps

Built on proven encryption technology that ensures secure creation and capture of documents and assets.

We have incorporated high security features, which provide secure evidencing with digital signature for each issuer of digital judicial stamp.

## Experience Seamless Stamping in Three Simple Steps

### Step 1 :

Select your eCourtFee type, whether it's a welfare stamp or a standard eCourtFee, we've got you covered.

### Step 2 :

Choose your preferred payment method. We offer convenient options such as Meter Balance to make your payment process seamless.

### Step 3 :

Select the amount and make your payment to print the digital stamp. If you need an e-court fee with litigant details, just fill in the litigant's details. With a few clicks, you're all set to pay and print.

## Security with advanced technology

### Unique stamp number

Each impression is supported by a unique number generated by a digital server.

### Copy protect

Protection of copy through microdots.

### Barcode verification

Signed barcode verification using a special secure application.

### Online repository

All transactions are captured in a server with secure access.

## Digitalising stamps for a seamless experience with unique security features

### Affordable, Efficient, Secure.

#### Transaction Management

Keeping track of your transactions is simple with Pitney Bowes. You can easily view all judicial transactions and access detailed reports for meter balance, account, and licence numbers in the "Reports" section. Rest assured, it's secure - you can verify by entering the certificate number or scanning the code.

#### Meter Balance Refill

Refilling your Meter Balance is now simple. Just enter your payment details and the desired amount for a smooth transaction.

#### Online verification of stamps available

The solution protects data by upholding the highest standards of security. Our patented security technology guarantees unparalleled secure evidencing, redefining data integrity and trust in stamp duty transactions.

#### Realtime reports availability.

All judicial transactions, including welfare stamps, eCourtFee, and more, all in one place with access to detailed reports for meter balance, account number, and license number.

# Unlock the Power of Digital Stamps with Our User-Friendly solution

## Step into the future of stamping with the India Digital Stamps solution!

Our intuitive platform simplifies the stamping process, providing efficiency and ease for all your needs. Embrace the digital revolution with confidence in your fingertips with our solution. We are redefining stamp duty transactions for a seamless experience that combines innovation with convenience.
