

Pitney Bowes Smart Access Management® (SAM)

**Delivering assurance.  
Inspiring confidence.**

**SAM Countertop**

**Hi – I'm SAM**, let me be your Digital Concierge. I know how tricky it can be for businesses to manage visitor access in today's hybrid world of work. I'd like to help you protect your organisation. Let my intelligence provide you with all the information and insight you need to manage and control your physical and digital spaces.

Speak to Pitney Bowes today to find out more about how I can help:

- Create a **welcoming, actively managed** environment for authorised people
- Deliver **intelligent technology for constantly changing requirements** and back-end prerequisites
- **Protect your people, premises and reputation** through effortless enforcement of security and compliance while providing a warm welcome for your visitors.

## SAM features:

Self-setup custom workflows for each visitor type	Facial recognition for an even simpler way to sign in	Unlimited sign-in and sign-out provides maximum flexibility	Policies, NDAs and declarations sent by email
Zero touch access via QR code for staff and frequent visitors	Large screen with customisable graphics and appearance for brand consistency	Email and SMS notifications when a contractor or visitor arrives	

# Smart Access Management<sup>®</sup> (SAM) Countertop

## What's the difference between the Countertop and Countertop Pro?

The main difference is the screen size; the Countertop has a smaller screen than the Countertop Pro.

- Hardware**
- Countertop or Pro tablet.
  - Thermal printer
  - Flexible housing
- Connections**
- 2x Power lead
  - Wi-Fi and network compatible
