<b>Addressing</b>	Manually address every item without knowing if your information is accurate.	Log into SendPro Online and quickly complete the sending information. 
<b>Parcel information</b>	Manually enter every parcel's information into a manifest.	Automatically print 2D barcode. 
<b>Tracking</b>	Take the tracking code, enter it into Royal Mail website and track online. At that point, you can see if the item has been delivered and who signed for it.	Click on 'Track'. You'll be able see if/when the item has been delivered. 
<b>Customer queries</b>	If you receive a customer query, you'll then need to find the corresponding parcel information and manually type the appropriate information in an email.
